# Notes MTH 332:Mathematical Statistics for Week of 4/5/2020

## Monday 4/5

Started to document results and analyze the p-value
Looked into T-test vs. bootstrapping and analyzed differences in p-value generated for each method

## Tuesday 4/6:

Finished conclusion and adding results in tabulated form to report
Discussed, in detail, the results of bootstrapping and how the p-value can be interpreted
Added whether there was significant evidence to reject the null hypothesis

## Wednesday 4/7:

Talk about methodology of the project and adding some description for how the results were obtained

## Thursday 4/8:

Finished methods section and started introduction for the report

## Friday 4/9:

Finished report and sent to Professor Davis for review
Checked report

## Saturday 4/10:

Submitted report
